## IF GRIF RECRUITS LIVE UP TO RECORD

(Continued From First Page.)

tag. Defensively all three look good. Elberts trails in this direction with a mark of 921. Burke has 981 and Tomlinson 967, or an average of 956 for the three. Not a bad looking outfield by any means, and fast. Elberts scored ninety-nine runs for his club last season, while Tomlinson had done as well as he could in his last time.

The infield is made up now, barring accidents. But the outfield could be bolstered from any one of the other candidates not mentioned in our guess. Bill Laval is by no means out of the race. Bill has done about as well as he can in his last time. The four men in the inner works—Raley, Bresnahan, Griffin and Newton—have an average with the shillalah of .300, the wonder mark in the realm of swat. They will all be below this in 1913, but the probability is that they will improve. Raley batted .309, Newton .270, Griffin the league hit .356 and Bresnahan .267. If there is a weakness in the infield it is in fielding, where the average is only .546, by no means poor. Young Bresnahan is credited with a percentage of .589 at the hot corner which brings the general average down.

Club Averages .290. But getting away from departments of the game, the infield and outfield combined—remember all of this figuring is on the averages of last year and must be taken for what it is worth—will start work with a fielding average of .55 and an offensive mark of .290. What the batteries will do remains for the future. Johnny Mace can always be relied upon to bang as good as .270 while Charlie Lusk is said to be even better. Jay Rogers was never strong with the bat, though he did break up several games with fifty whiffs, and finished with .270 to his credit. As for young Berger, he is untied and must be seen before being judged.

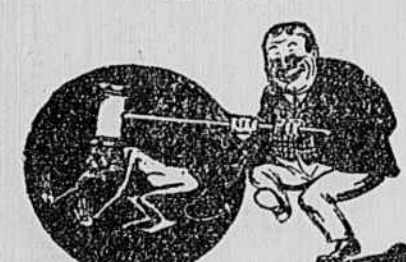

The official averages of the club bear out what Grif said at the end of the season—he wanted an average club, not a bunch of cleanup phenoms. But it isn't only in hitting that the preseason dope rings good. The men rather than the numbers around to the cashing corner. Taking them right down the line, Steve Griffin scored ninety-seven runs and stole forty-five bases; Raley, forty-eight runs and thirty-two bases; Newton, sixty-eight runs and twenty-nine bases; Bresnahan, fifty-three runs and twenty-nine bases; Tennant, thirty-six runs and twenty-nine bases; Burke, seventy-seven runs and twelve bases; and Elbert, ninety-nine runs and thirty-one bases. This makes an average of sixty-nine runs per season per man, and an average of thirty-three stolen bases per season per man.

Should Win Most Games. Carrying the statistics a little further and figuring the numbers of runs and stolen bases per game on the schedule of 132 games, we find that each man scored .523 of a run per game and stole .255 bases per game. This is just for seven men, but assuming that this average is maintained when the battery is included, the nine men would score 47 runs per game and would steal .225, or about one-fourth of a base per game. If, however, for the sake of argument, we assume that the battery is going to lessen the offensive strength of the club, we can cut off the 7 tenths of a run, leaving four runs per game. Any club averaging four runs a game for an entire season should win at least two-thirds of the games played, and winning two-thirds of the games played means a pennant.

The percentage of stolen bases, while not as great as might be wished, is still far above the average, and since there is a wide divergence be-

## Blood Bath Knocks Rheumatism

Remarkable Effects of a Remedy That Actually Irrigates the Entire Blood Supply.

It sounds queer to take a blood bath but that is precisely the effect of a most remarkable remedy known as S. S. S. It has the peculiar action of soaking through the innermost pores of the body, in five minutes its influence is at work in every artery, vein and tiny capillary. Every membrane, every organ of the body, every enervated becomes irrigated. The stimulating properties of S. S. S. compel the skin to throw off its old, dead, flaking scales, and the new, healthy, pink, and supple skin grows in its place. And best of all, this remarkable remedy is welcome to the weakest stomach. If you have dragged yourself until your stomach is nearly paralyzed, you will be astonished to find that S. S. S. gives you sensation but goes right to work. This is because it is a pure vegetable infusion, is taken naturally into your blood just as pure air is inhaled naturally into your lungs.

The great Swift Laboratory has spent millions of dollars in perfecting, producing and placing in the hands of the public this wonderful remedy. So give your blood a good bath with S. S. S. for it knocks the worst forms of rheumatism every time.

You can get it at any drug store at 11.00 a bottle. It is a standard remedy, recognized everywhere as the greatest blood purifier ever discovered. Write to The Swift Laboratory, 127 Swift Bldg., Atlanta, Ga.

tween the men stealing the greatest number of bases and those who drop down, notably the pitchers and catchers, the average is by no means a real indication of the speed of the men. Unless the figures tell a most palpable falsehood, Grif has every reason to believe that his club will be out in front, provided accidents do not occur to the men.

Doc Newton made his appearance yesterday, looking as dapper and fresh as a newly-laid Easter egg. Like the rest, is feeling fine, glad to be in Richmond and strong in the belief that Steve has a winning bunch of youngsters. The seven here before were out on the college campus morning and afternoon and began taking things a little faster. Gradually the soreness is wearing off and by tomorrow when all of the squad will have arrived, these early birds will enjoy the pleasure of seeing their team-mates overcoming the first anxiety of training.

First Game Thursday. The first game of the season for the locals will take place Thursday with Charlie Dooling's Phillies. Grif expects to work the youngsters entirely in this encounter. He is particularly strong for Kelly Harris, who, when he was here before, was known as Charles Harris. He is probably the fastest man on the club. Steve is going to try him at second, and in the event he shows anything he will be kept as utility fielder. Never again will Grif be caught without somebody to fill a gap, as he was last year, through injuries.

His pitchers are not worrying him, but he is a little anxious to watch the newcomers get loose. He is in hopes of picking at least one likely youngster out of the crowd. Of course he has his veterans of last season in Harvey Bussey, Harry Griffin and Charley Strain, and he also has Burleson. These are known quantities, with the exception of Strain, who should have improved considerably. But the club has no porcupine. There is a youngster named Woolery, from New York State, who is expected to report, but Steve is by no means certain. Woolery is a big fellow and shoots from the south side. With just one lefthander in camp, making good, Steve would feel much more secure. However, a number will report, and since there is strength in number, the leader is hoping for the best.

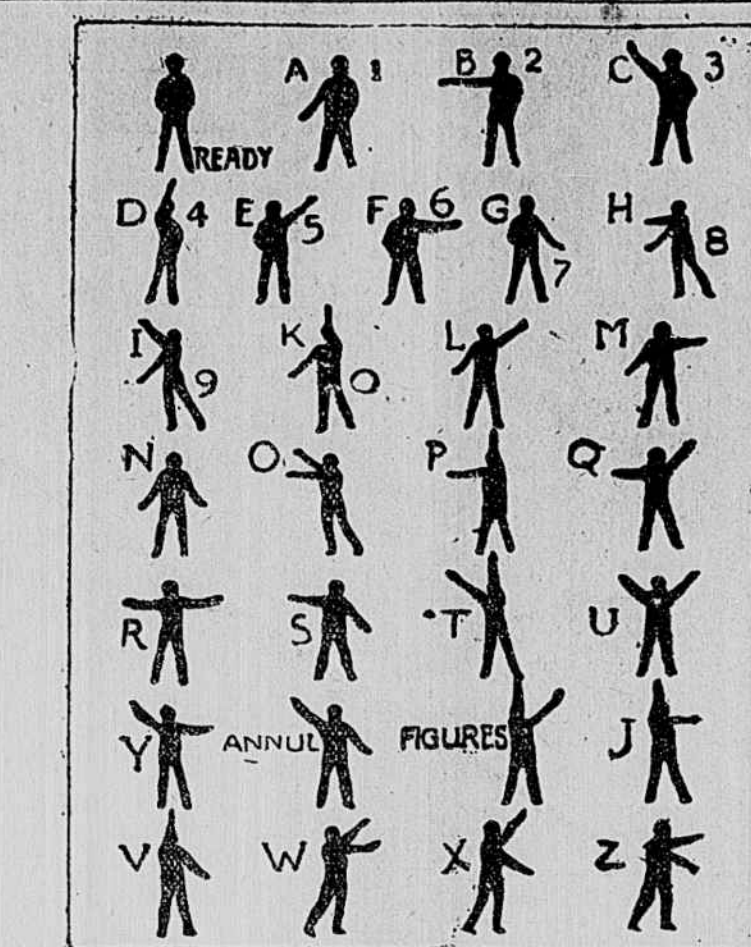

Heinie Busch writes in that he would like to tell many things, but does not know how. He is modest in his predictions, claiming no pennant but promising to have his club out there fighting all the time. He will have three catchers, three pitchers, three basemen, three outfielders, and five or six infielders, making a total of twenty-six men. He isn't at all worried about his holdouts, remarking that he has offered them all they want, and that they can take it or leave it, but they'll take it or not play baseball.

Buck Pressley comes to bat with this and aside from the slight remarks about himself, we consider it a remarkably good letter, so read it:

The Times-Dispatch: Dear Sir—Your letter of March 4 received, and I am indeed glad to furnish the statistics of the "Tigers" of 1912. I am delighted to get a little dope in your sporting sheet. I want to say in the beginning that we are out to win the pennant, and we will not let anything stand in the way of our success. We do not want to be misunderstood. We do not claim the pennant, but we do claim a fighting chance, and the boys are always ready to put up the fight. We do not want a man unless he is willing to put his soul into the game, and this is always the subject of discussion in our secret meetings. I expect this to be a bunch of boys we had last season would give an arm for a game, and it is that same spirit that brought us out with a record of 100 wins in 1912. I say this, if I can only get the boys to the same pitch as they were during the last month of 1912, we will go under the wire well out in front. From your sheet of a recent date you concede the flag to Norfolk of last year. Here is a tip straight from the stable: Don't count the 1913 Tigers out until September 14. We always have a ball club with a record date you concede the flag to Norfolk of last year. Here is a tip straight from the stable: Don't count the 1913 Tigers out until September 14. We always have a ball club with a record date you concede the flag to Norfolk of last year.

Here's what Pop Shaffer has to say about his prospects: "The Times-Dispatch: Friend Guss—You are to hand, was pleased to hear from you. I will say that it is a little early to make predictions in regard to who will win out in this coming season's race in the Virginia League. I think that we will have the best season in regard to attendance this year, that the Virginia League has ever had. We will not have the light on the presidency that dragged along so long last spring, and disgusted the people so much. Also, we will have that United States (Studebaker) League to contend with in Richmond again. Although I see in the papers that Promoter Whitman is trying to interest a few angles to again dig up and burn up some park in Richmond, which should be a great season. It will make your town good. And by so doing will make the whole league good. As for Norfolk, things look better here now for baseball than I have ever seen it—everybody is talking baseball and is anxious to get the ball to ring up the curtain, and I believe we will have the best season here, they have ever had in Norfolk. Our newspapers are doing fine by me, giving me all the space I want and doing every thing in their power to boost the game. As for my club, I am striving hard to give Norfolk a winner. And I think that with the men I have signed up, I will have a winner. I will show the men I have in past seasons. I will have a good fast club, as every man I have sure

## WITH BOY SCOUTS

THE MAN HERE IS FACING YOU THEREFORE, WHEN SENDING, THE RIGHT HAND IS OUT FOR "A."

Night signals: One long whistle means "Attention," "Look out for the next signal," "Silence" and "Alert."

looks good to me at present. I see that my old friend Griffin has signed up some good material and I am glad of it. I want to see the race close and interesting. I can't give you my full lineup at present for reasons, but will send it to you later on. Hope you are feeling fine as this leaves me the same. Best regards to Bradley and Griffin.

Your old friend,  
Chas. (Pop) Shaffer,  
Manager, Norfolk Baseball Club.

Paul Davis, who is to manage the Newport News Club by proxy, sends us this little greeting, which makes rather ray reading:

Cus Malbert, Sporting Editor Times-Dispatch, Richmond, Va.: Dear Sir—You will pardon my delay in complying with your request. I have been very busy arranging for an acting manager to take charge of Newport News club until I can report May 1.

Regarding prospects of Newport News club, will state briefly that I am building my hopes upon the young material that I have signed for my club. The Newport News club will not have a home for has-beens or castoffs from higher class leagues; it will be a developer of young material, and if I don't miss my guess, the fans of the Virginia League will have the pleasure of seeing some of the fastest young material that they have seen since the Virginia League was reorganized. We do not claim to be pennant winners at this early stage of the game but you can rest assured that we will be strong contenders for the same from the start of the race.

Of course the entire line-up of the Newport News team will not be composed entirely of youngsters, for we will have a few experienced men sandwiched in with the youngsters, to balance the club. Twenty men will report for spring training and will work under Acting Manager Matty J. Broderick, who will have charge of the club until I report. Edward Early, secured from the Birmingham, New York State League, club, will assist Broderick with the young material until the season opens. Early is a veteran of 23 years and has been in the field. He is fast and a good hitter and has had several years' experience. The following men will report March 24:

Pitchers—Jack Kull, who has had experience in the Eastern and Tri-State Leagues; Harold McKenzie, who was a member of the Newport News club last season; George T. Eberwein, amateur of Washington, D. C.; Charles Paxson, from Trenton, Tri-State League; Thomas B. Yarnall, amateur, Philadelphia, Pa. Infielders—Daniel Quinn and another young third baseman, amateurs; John Motzer, shortstop, from the O. and P. League; Matthew Kirby, from the South Atlantic League; William F. Woolery, of Syracuse, N. Y., a southpaw; George T. Eberwein, amateur of Washington, D. C.; Charles Paxson, from Trenton, Tri-State League; Thomas B. Yarnall, amateur, Philadelphia, Pa. Outfielders—William Bobel, amateur, Lorain, Ohio; Bud Ackerman, from the Canadian League; John McDermid, secured from the Troy, N. Y., club.

Managers—Daniel Quinn and another young third baseman, amateurs; John Motzer, shortstop, from the O. and P. League; Matthew Kirby, from the South Atlantic League; William F. Woolery, of Syracuse, N. Y., a southpaw; George T. Eberwein, amateur of Washington, D. C.; Charles Paxson, from Trenton, Tri-State League; Thomas B. Yarnall, amateur, Philadelphia, Pa. Outfielders—William Bobel, amateur, Lorain, Ohio; Bud Ackerman, from the Canadian League; John McDermid, secured from the Troy, N. Y., club.

Managers—Daniel Quinn and another young third baseman, amateurs; John Motzer, shortstop, from the O. and P. League; Matthew Kirby, from the South Atlantic League; William F. Woolery, of Syracuse, N. ## MOWRY'S BENDERS PROVE TOO MUCH FOR SPIDER TEAM

(Continued From First Page.)

but Luck hit into a double play, a nice drive in right field for one base, O'Neil and Beale each singled, but Wiley ended the inning with taking three healthy swings at the pill.

In the fourth frame the visitors annexed one more run as a result of a double by Harrison after Donahue had singled.

After two men had been unsuccessful in reaching first, Ancarrow got a scratch hit to the infield but Lewis went out, pitcher to first. From then on to the end of the game the Spiders had two chances to score, once with two men down. W. Lewis doubled to left field, but died there when Hulcher grounded out to first.

Again in the ninth frame Lewis, first up, singled, making his third hit. He was sacrificed to third after he had stolen second, but Mowry put on extra steam and fanned the next two men.

Score Two More.

In the fifth frame the visitors continued their scoring by shoving two more counts across. Stewart connected with one of Hulcher's outshoots for a clean single into center field, and when Hulcher let him get a good lead off first, swiped the second sack, beating Scales' throw by a narrow margin.

Coleville acted martyr and sacrificed him to third, from where he scored on Lancaster's hit into O'Neil's territory. Hulcher was unable to locate the plate, and Peeples was given free transportation to the initial station. Turberville went out by the short to first base route. Mowry came across with a scratch hit, which brought in one more man. This ended the scoring for both teams.

Hulcher Gets Stronger. Hulcher appeared to grow stronger in the latter part of the game, only allowing two Washington and Lee players to reach first by hits, both of whom Scales caught trying to steal.

In the eighth frame Flanagan, who had taken Luck's place in left field, dropped a fly. The runner, reached the midway station on an infield out, but Hulcher, nothing discouraged by his support, spent a little more energy and caused the next two batters to send up pop flies to third base and shortstop, respectively.

For the Spiders Ancarrow on first base put up a nice game, although this is the first time he has ever tried to hold down the initial corner, and the sun has a bad habit of getting in the first baseman's eyes on balls thrown from third. Captain Creale played with a knee badly spiked as a result of the game with the Maryland Aggies on Friday, but did well with the exception of dropping a fly ball after a hard run.

W. Lewis was the batting star for the Spiders, being able to garner in a double and two singles out of four attempts. For Washington and Lee, Captain Donahue had both in the field and at bat, connecting for a triple, a double and a single out of four tries.

Catcher Stewart also put a sterling exhibition, his pegging to second base catching several would-be thieves. The score:

## CLOTHES THAT FIT

The secret of being well dressed is in being WELL FITTED. The suit that "bags" here, "sags" there and "puckers" in another place, even though it be made of the most expensive material that ever left a loom, it cannot be stylish in appearance.

The tailor who sends your suit to the sweat shop out of town cannot give you a good fit.

I make the entire suit on the premises—every step in the workmanship by experienced operators—A PERFECT FIT, THEREFORE, IS ASSURED.

Drop in and look over the extensive stock of new SPRING MATERIALS—the latest patterns. As a special inducement to early buyers, TWO-PIECE SUIT TO ORDER—EXCELLENT QUALITY BLUE AND GRAY SERGE—

**\$18.50**

REGULAR \$30.00 VALUE.

And, remember, A PERFECT FIT GUARANTEED.

## TRINITY TAKES CLEMENT GILE BEATS PURPLE

(Continued From First Page.)

way for more runs in the sixth, when he opened with a single. Cornish shot him home with a zipping triple to far right, and checked in himself on McGhie's one-spot rap.

While Gile, with the exception of a little wildness, had the Purple at his mercy for six innings, not allowing a hit, Holy Cross scored one run in the fifth.

With two out, R. Murray walked and came all the way home when McGhie muffed Murray's fly after a hard run. Puppelly's bad fizzle of a long easy fly after two were out led to another run in the seventh. J. Murray scoring Long on a single. Two clean hits and some butterfingered work by R. Murray on a soft fly gave Holy Cross a brace of runs in the eighth after two were out. Cunningham relieved R. Murray in the sixth and the southpaw allowed only one hit and one run, the run coming from his predecessor's legacy.

Yah.
